

Do you have yard drains?

You may be breeding mosquitoes.

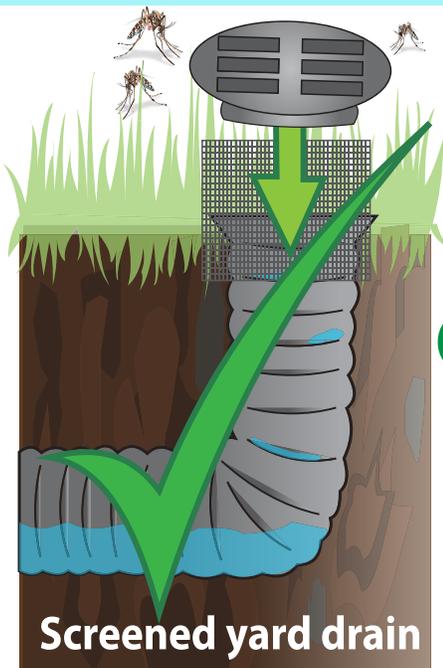

Mosquitoes will develop in yard drains underground.

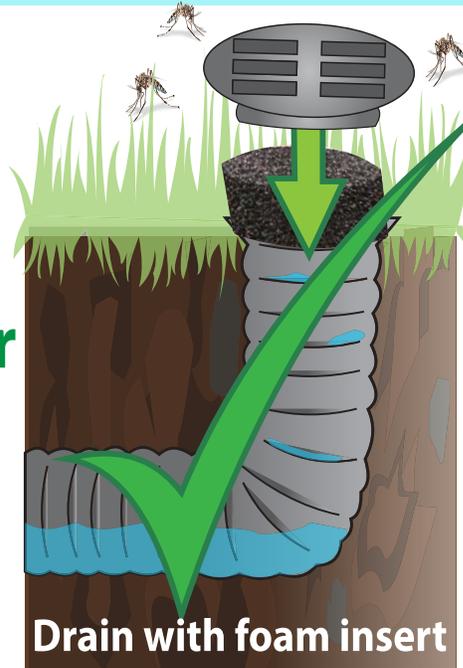

Mosquitoes can easily fly IN and OUT of the yard drain cap.

Prevent mosquito development in your yard drains.

Cover ALL yard drains with window screen or use a foam insert to keep mosquitoes OUT!

Or

Mosquitoes CANNOT enter the tube after adding the window screen or foam insert under the drain cap.

Window screen

Window screen can be purchased at your local hardware store.

"Drain tube foam insert" can be purchased online.

Foam insert
